EVERYTHING ABOUT IMAGE AND VIDEO

Everything that you possibly do with media of image or video format - from generating, editing to upscaling, with the help from the smartest AI technology

-  **Text to Image & Video**
Expand the edges of any image with context aware
-  **Image to Image**
Transform and create image variations from demo image
-  **Image Upscaling**
Expand the edges of any image with context aware
-  **Images to video**
Turn a sequence of images into an animated video
-  **Objects movement tracking, editing and removing**
Reimagine, remove and remix and part of an image or video
-  **Background editing and replacing**
Remove, replace and editing the background of any image or video
-  **Auto caption for image and video**
Generate automatic captions for single or multiple images and videos
-  **Trailers and highlight generator**
Intelligently extract short videos and key moments from long videos

Text to audio

Make voiceover for text content

Noise clean and silence removing

Remove noise or silence segments from an audio file

Text content generator

Create text content from description and template

Paraphrase

Rewrite and create variations for text documents

Content summarizer

Create description summary for any video, text or image

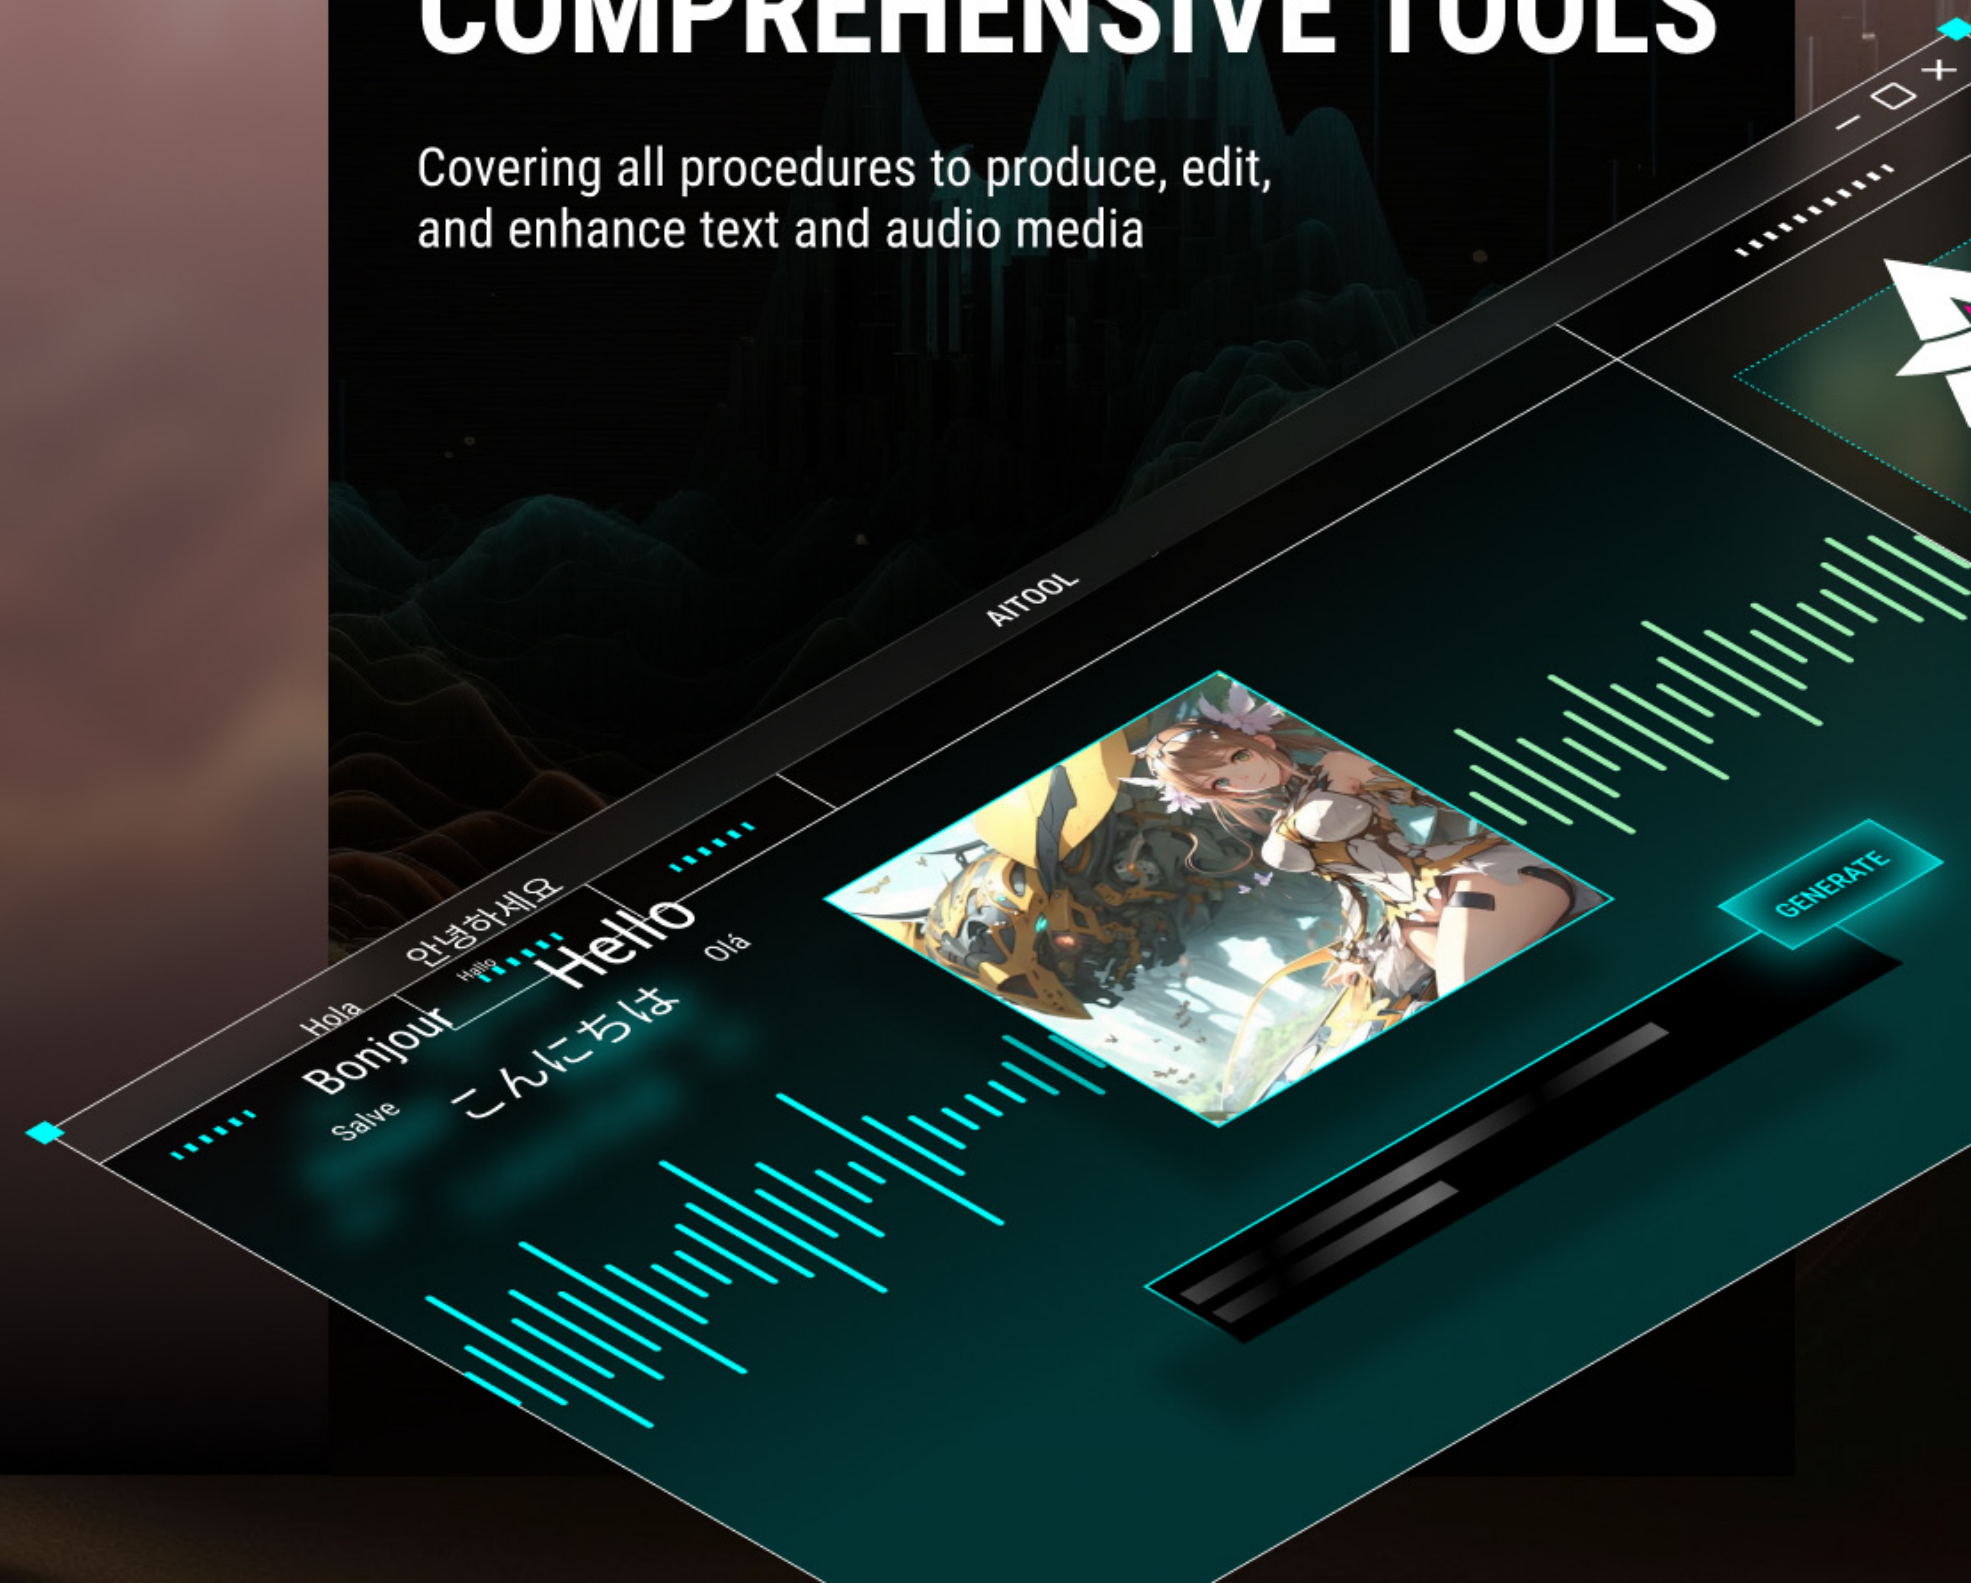

Transcript and subtitle generator

Auto generate text from any audio or video file

AUDIO AND TEXT COMPREHENSIVE TOOLS

Covering all procedures to produce, edit,
and enhance text and audio media

MOCK UP AND TEMPLATE LIBRARY

Latest trends collections and
comprehensive mock up library

SOCIAL CHANNELS FOR CREATORS

Access to exclusive socials
for AI-empowered art creators

NFTs GENERATORS

Create NFTs from your arts with no IT
technical knowledge required

ECOSYSTEM FOR CREATORS

Limitless features, extensions and integrations for media
creators to craft, visualize, refine, and publish their creations

Use integrated extensions and applications
to create real-world printings

AUTO PUBLISHING

Publish your work to other public
platforms such as Youtube, Facebook,
etc.

MORE TO BE DETERMINED

We are constantly seeking new
partnerships to boost value offered to
users

■ GENESIS NFT COLLECTION

The Cyber Valkyries

■ THE STORY

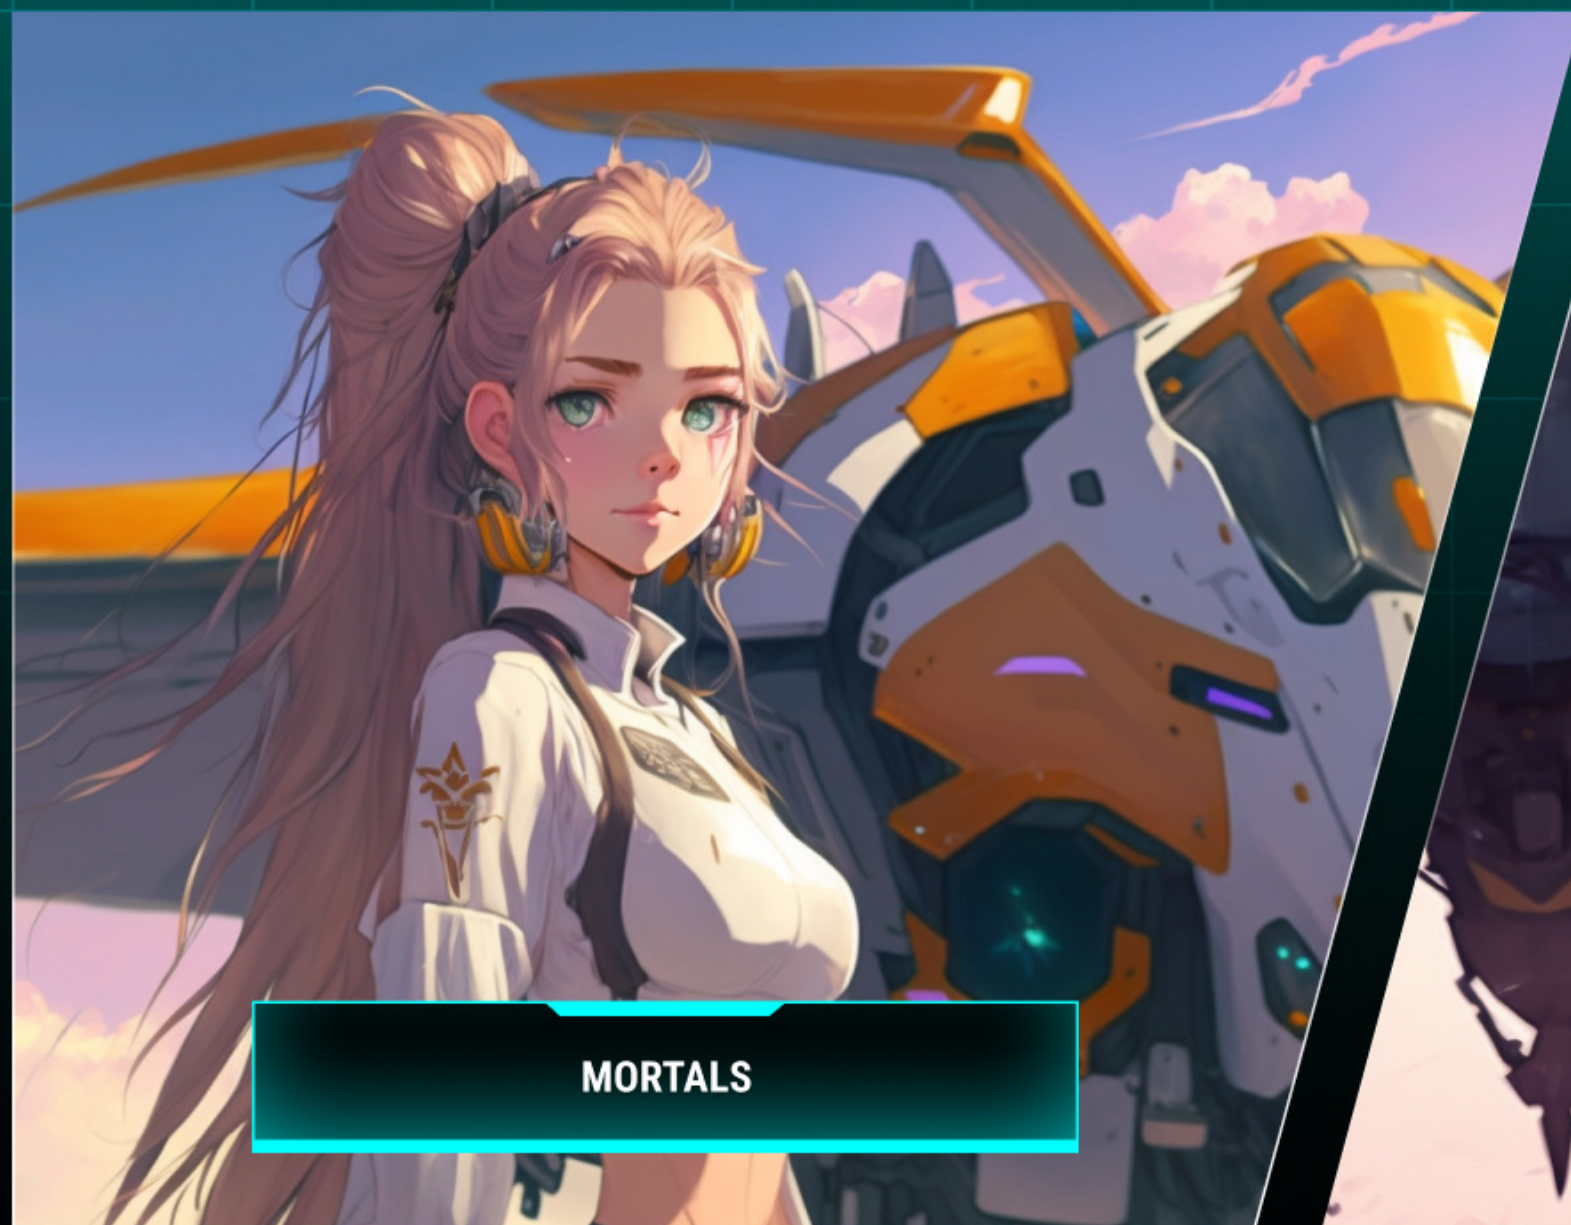

In the not-too-distant future, the world had become a very different place. Artificial intelligence had advanced to the point where it was now an important part of the daily life. And nowhere was this more evident than in the field of art.

The Cyber Valkyries, an AI-empowered army, was at the forefront of this revolution. Consisted of a wide variety of beings, including numerous Supernatural and Mortal creature breeds, the AICrew was united in their mission to create art that pushed the limits of what was possible.

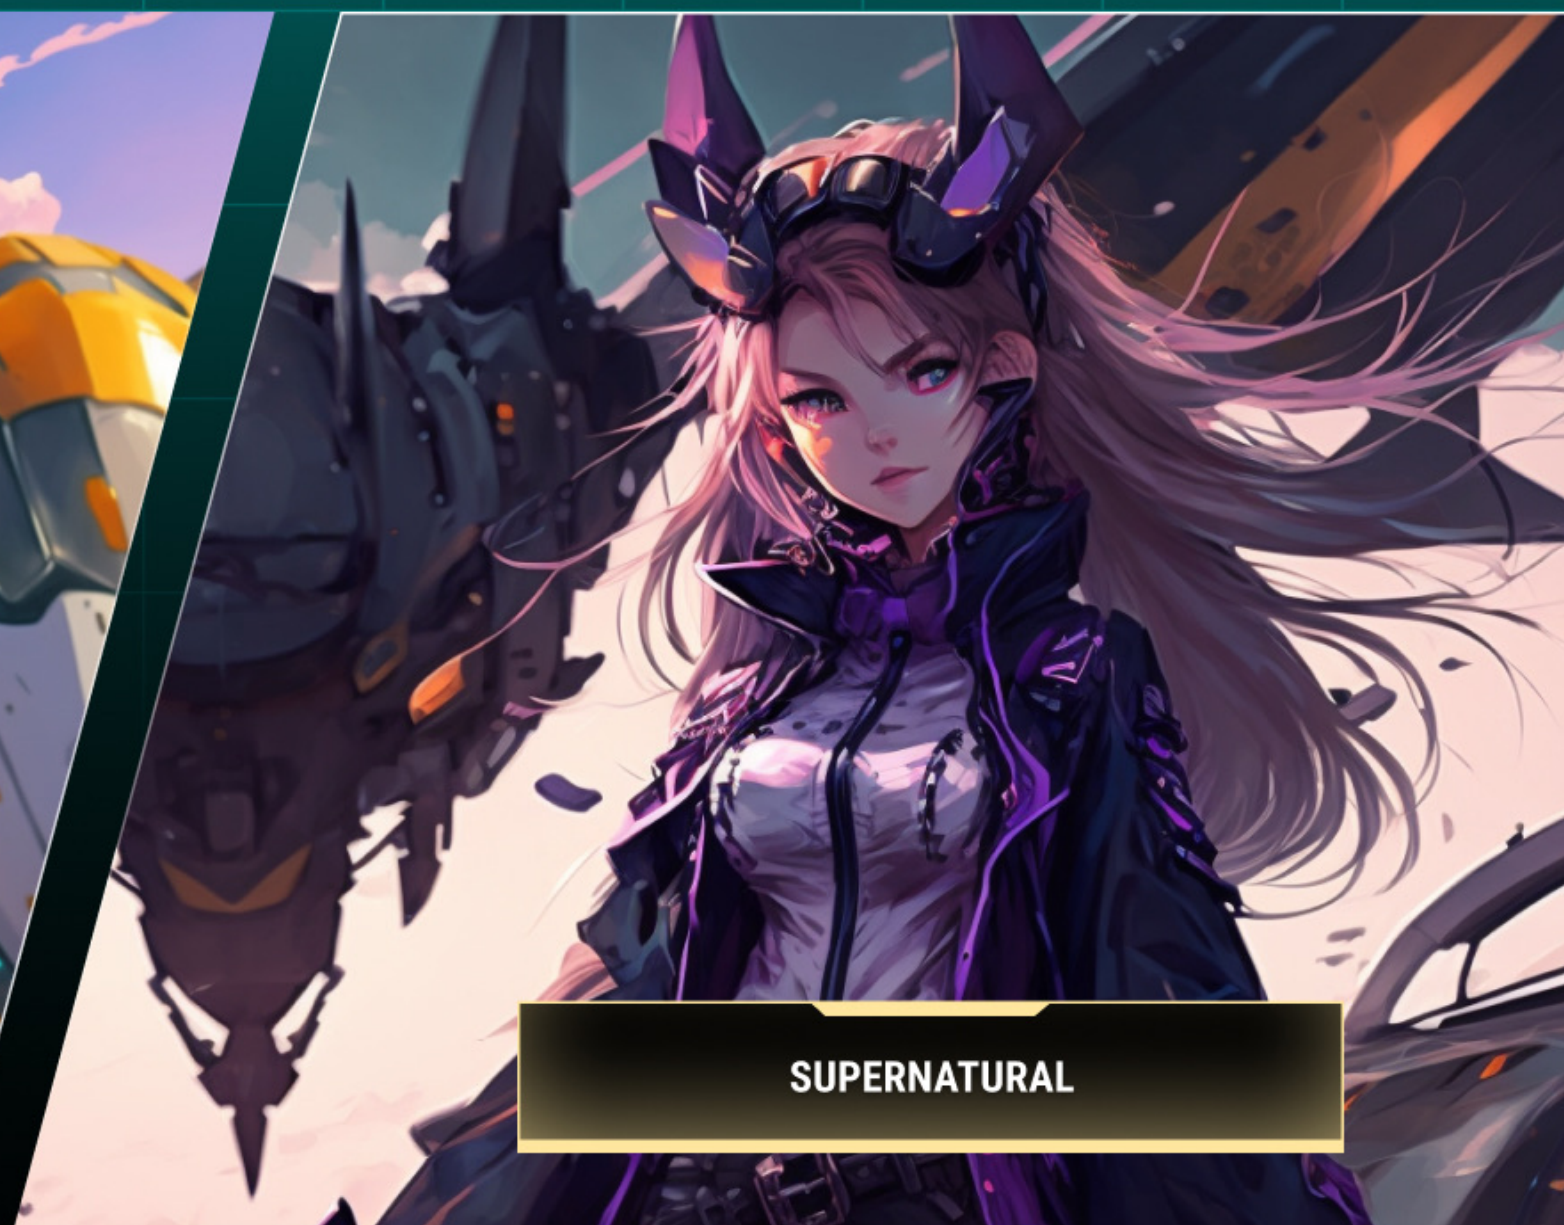

Genesis collection

2600 supply

MEET OUR CREW

MORTALS

SUPERNATURAL

The Cyber Valkyries Collection consists of 2,600 genesis AI-generated art NFTs with the objective of providing exclusive benefits to NFT owners and demonstrating the extraordinary artistic potential of AI to the world.

■ ASSET SUMMARY

The collection is divided into two main categories: The Supernaturals and The Mortals, each of which is comprised of multiple races.

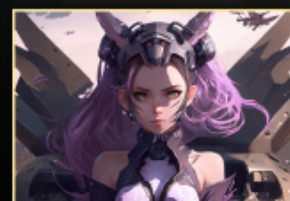

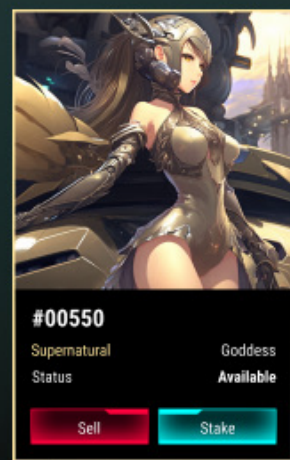

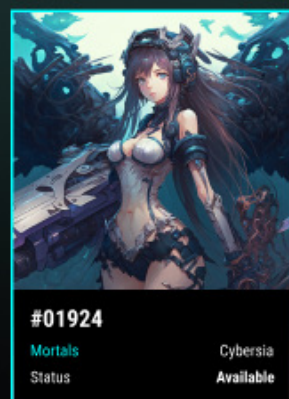

Each subset of the collection comes with its own unique theme and aesthetic, as well as tier-bound values that it guarantees to bring to its owners. The quantity of the NFTs in each subset is presented in the table beside.

	Tier	Character	Assets
1	Supernatural	Goddess	50
2	Supernatural	Demon	100
3	Supernatural	Fairy	150
4	Mortal	Synthmen	200
5	Mortal	ShadowClaw	300
6	Mortal	Cybersia	500
7	Mortal	CyberPaw	1300
Total			2600

VALUE FOR NFT OWNERS

OWNERSHIP

An NFT holder would have full ownership over the NFT and you can use it anywhere, for whatever reason that you like

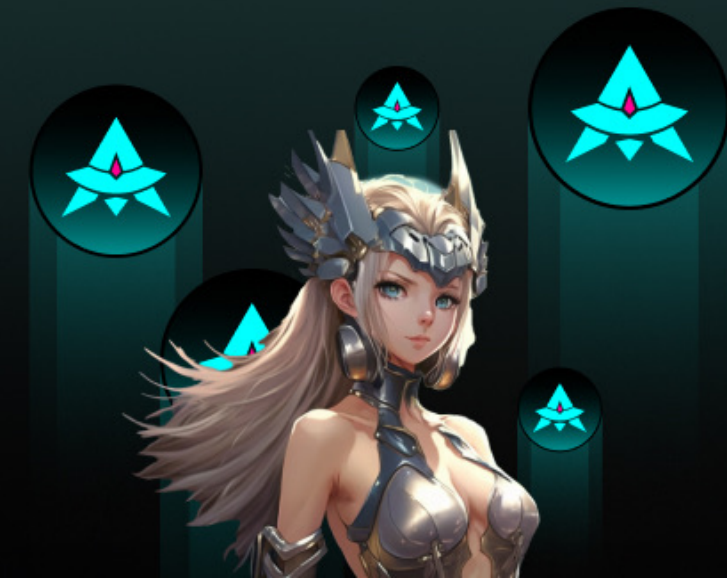

MEMBERSHIP RANKING

Stake your NFT for rewards and the chance to win lucky drops or bonus rewards

STAKING FOR PASSIVE INCOME

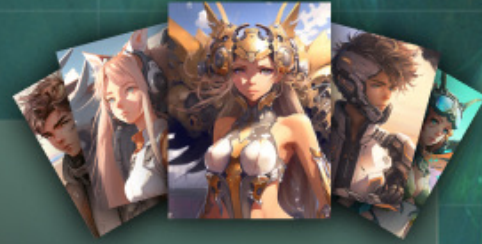

An NFT holder would be entitled to a membership tier corresponding to the rarity level of the NFT. Diamond Membership is given to holders of legendary NFTs. A higher membership tier may grant more access to premium and beta features

■ INTRODUCING TO THE

ROADMAP TOKENOMICS

- ◆ Market & Product Research
- ◆ NFT Collection Building
- ◆ AI Models Building

Q1-2023

- ◆ Features Beta Ver. 2.0 released
- ◆ Ecosystem Beta released
- ◆ Partnership Programs

Q3-2023

- ◆ Infrastructure robust
- ◆ Features expansion & improvement
- ◆ More rewards programs for NFT Owners

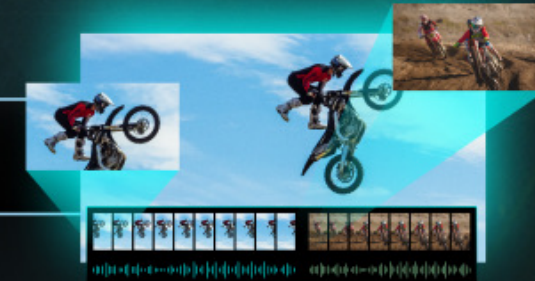

2024

Q2-2023

- ◆ Website & Social Channels Released
- ◆ Token listed
- ◆ Genesis NFT Collection minted
- ◆ Features Beta Ver. 1.0 released
- ◆ AI Models Testing

Q4-2023

- ◆ Features Beta Ver. 3.0 released
- ◆ Perks for NFT Owners

Binance Smart Chain

GOVERNANCE

Token holders can participate in governance decisions through voting rights, influencing the direction of the project, policy updates, or new feature implementations.

STAKING REWARDS

Encourage users to hold onto their ACT by offering staking rewards. Staking could also contribute to the security or efficacy of the platform.

TRANSACTION FEES

ACT could be used to pay for transaction fees within the platform, incentivizing its use and circulation.

EXCLUSIVE FEATURES

ACT could be used to access special features or services within the AICrew ecosystem, such as advanced AI tools, premium datasets, or early access to new tools and features.

EDUCATIONAL RESOURCES

ACT might grant access to exclusive educational materials, webinars, and workshops about AI and technology, aligning with the AICrew's focus on AI.

LOYALTY REWARDS

Implement a loyalty program where users earn ACT for engagement or contribution to the platform, such as content creation, data contribution, or community support activities.

THANK YOU FOR TAKING THE TIME TO LEARN ABOUT AICREW

WE LOOK FORWARD TO KEEPING YOU UPDATED
AS OUR PLATFORM CONTINUES TO EVOLVE AND GROW.
